#### INDEPENDENT AUDITOR'S REPORT

June 28, 2024

Board of Directors Marion County Public Library Lebanon, Kentucky

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Marion County Public Library, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Marion County Public Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Marion County Public Library as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Marion County Public Library, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Change in Accounting Principle

As described in Note 1M to the financial statements, in 2023, Marion County Public Library adopted new guidance, GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. Our opinion is not modified with respect to this matter.

#### Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair

presentation of financial statements that are free from material misstatement, whether due to fraud or

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Marion County Public Library's ability to continue as a going concern for twelve months beyond the financial statement sate, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will detect a material misstatement when it exists. The risk of not detecting misstatements resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Marion County Public Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Marion County Public Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, schedules of the library's proportionate share of net pension liabilities, and the schedules of the library's proportionate share of net other postemployment benefits on pages 3 through 8 and pages 31 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated June 28, 2024 on our consideration of Marion County Public Library's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Marion County Public Library's internal control over financial reporting and compliance.

Sincerely,

White and Company, P.S.C.

#### Management's Discussion and Analysis (MD&A) Year Ended June 30, 2023

This section of the Marion County Public Library's annual financial report presents our discussion and analysis of the Library's financial performance during the fiscal year that ended on June 30, 2023. Please read it in conjunction with the transmittal letter at the end of this report and the Library's financial statements, which immediately follow this section.

#### FINANCIAL HIGHLIGHTS

- The ending unrestricted cash balance for the Public Library Account was \$951,363.
- A separate account was opened in FY16-17 to hold the income from the Public Library Building Grant provided by the State. This account had a balance of \$114,240. The account is non-interest bearing and funds may only be utilized to pay the debt payments associated with the building project.
- A separate account was opened in FY 17-18 to hold proceeds from Bonds sold to fund the construction project. This account had a balance of \$3,631. The account is interest bearing and funds may only be utilized to pay for expenses associated with the building project.
- The Public Library had a total of \$1,060,481 of revenue for the year ended June 30, 2023.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the Library's basic financial statements. The Library's basic financial statements are comprised of four parts – Management's Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Library.

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Library's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Library's government, reporting the Library's operations in more detail than the government-wide statements.
- The government fund statements tell how the Library's related activities were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains how the required parts of this annual report are arranged and are related to one another.

The government-wide statements report information about the Library as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities according to generally accepted accounting principles.

**Notes to the Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### ADDITIONAL FINANCIAL INFORMATION

The Marion County Public Library is a Special Purpose Government Entity authorized under KRS 173.720. The Library Board sets and approves the budget based on the annual fiscal year starting July 1<sup>st</sup> running through June 30<sup>th</sup>. The Governing Board is a five-member board with fixed terms as specified by law

Over the course of the year, the Board monitors the budget. The estimated 2020 census shows a county population of 19,581. Marion County maintains a relatively low tax rate of 4.8 cents per \$100 assessed value for real property and 4.8 cents per \$100 assessed value for personal property in 2022-2023.

During the fiscal year 2022-2023, Marion County Public Library received \$1,060,481 total revenue. Of that amount, \$902,580 was from tax revenue. We received about 85% of the total revenue from local property, vehicle, and other taxes. As of June 30, 2023, the Library District had an available operating cash balance of \$951,363.

In the 2016-17 FY the library was awarded a state funded Public Library Building Grant. Grant holdings must be held in an account separate of (non-interest bearing) the operating fund. The balance on this account was \$114,240 on June 30, 2023. These funds may only be utilized in paying towards the bond payments associated with the Building Project that began its construction phase in December 2017.

In the 2017-18 FY the library received Bond Proceeds to fund the Building Project. These proceeds are held in an account separate of the operating fund. The balance in the account was \$3,631 on June 30, 2023. These funds may only be utilized in paying costs associated with the Building Project.

Total cash, restricted cash, and certificates of deposit at June 30, 2023 were \$1,079,234.

The library receives its tax income in uneven amounts. A large portion of the tax income is received when the real estate property taxes are collected and distributed sometime in the final calendar quarter of the year. The rest of the income comes in unequally and usually diminishing amounts throughout the year. Some of the apparent surplus is actually needed to tide us over well into the next fiscal year, as our fiscal year ends in June, but the majority of the tax receipts are not available to the Library until November and December. Any additional savings surplus becomes available for the library to use for capital improvements. It also serves as an emergency/contingency fund.

The Library's fund financial statements show expenditures of \$965,174 for FY 2022-2023. The breakout of the expenditures shows 48% (\$467,346) went toward payroll and related expenses. Debt service including interest made up 20% (\$193,969) of expenses. A total of 15% (\$141,475) of the expenditures went toward the purchase of materials, including books and audiovisual materials, and supplies. A total of 17% (\$162,384) went toward other library and bookmobile operations.

#### FINANCIAL ANALYSIS OF THE LIBRARY AS A WHOLE

Net position may serve over time as a useful indicator of a governmental agency's financial position. In the case of the Library, assets and deferred outflows exceeded liabilities and deferred inflows by \$1,067,166 as of June 30, 2023.

A portion of the Library's net position reflects its investment in capital assets (e.g., land, buildings and improvements, furniture and equipment). The Library holds these capital assets to provide basic, needed library services; consequently, these assets are not available for future spending.

The Library's financial position is the product of several financial transactions including the net results of activities, the acquisition of capital assets, and the depreciation of capital assets.

#### Net Position for the period ended June 30, 2023 and June 30, 2022:

|  | <u>2023</u>        | 2022        |
|--|--------------------|-------------|
| Current Assets                             | 1,102,261          | 999,360     |
| Non-current Assets                         | 3,229,413          | 3,372,048   |
| Total Assets                               | 4,331,674          | \$4,371,408 |
| Deferred Outflows (Pension and other       |                    |             |
| post-employment benefits)                  | 238,484            | 197,467     |
| <b>Total Assets and Deferred Outflows</b>  | \$4,570,158        | \$4,568,875 |
| Current Liabilities                        | 149,860            | 140,693     |
| Non-current Liabilities                    | 3,097,439          | 3,204,826   |
| Total Liabilities                          | 3,247,299          | 3,345,519   |
| Deferred Inflows (Pension and other post-  |                    |             |
| employment benefits)                       | 255,693            | 295,987     |
| Total Liabilities and Deferred Inflows     | \$3,502,992        | \$3,641,506 |
| Net Position                               |                    |             |
| Investment in capital assets (net of debt) | 804,947            | 825,788     |
| Restricted for Construction                | 3,631              | 3,631       |
| Restricted for Debt Service                | 114,240            | 107,500     |
| Unrestricted                               | 144,348            | (9,550)     |
| <b>Total Net Position</b>                  | \$1,067,166        | \$927,369   |
| Total Liabilities, Deferred Liabilities,   | ¢4 570 159         | ¢4 520 055  |
| and Net Position                           | <u>\$4,570,158</u> | \$4,568,875 |

#### Comments on Current Year / Prior Year Comparison

- The Library's total assets at June 30, 2023 were \$4,331,674 compared to \$4,371,408 in the prior year. The primary difference is a decrease in non-current assets.
- The Library's total liabilities as June 30, 2023 were \$3,247,299 compared to \$3,345,519 in the prior year. The primary changes are the reduction in bonds payable and decreases in both the net pension and other post-employment benefit liabilities.
- During 2022, the Library implemented GASB Statement No. 87, *Leases*, which recognizes the Library's leased copiers as intangible right of use assets. The Library also recognized a corresponding lease liability. Those changes were implemented as a restatement of beginning net position for July 1, 2021.

#### Comments on Budget Comparisons

- The Library's total General Fund revenues for the fiscal year ended June 30, 2023, were \$1,060,481. Budgeted revenues for the same period were \$1,018,280 a favorable variance of \$42,201. This variance is mostly from increased tax revenue received.
- Budgeted expenditures were \$1,018,280 compared to actual expenditures of \$965,174, a favorable variance of \$53,106 primarily due less payroll and benefit costs incurred and to less debt service expenses incurred compared to what was budgeted.
- The Library's total fund revenues exceeded total fund expenditures by \$95,307.

The following table presents changes in net position for the fiscal years ended June 30, 2023 and June 30, 2022:

|                                    | <u>2023</u> | <u>2022</u>  |
|------------------------------------|-------------|--------------|
| Program Revenues:                  |             |              |
| Charges for Services               | \$7,685     | \$ 10,358    |
| Operating Grants and Contributions | 1,356       | 8,074        |
| Capital Grants and Contributions   | 58,240      | 60,952       |
| General Revenues:                  |             |              |
| Taxes:                             |             |              |
| Property                           | 623,027     | 594,188      |
| Motor Vehicle                      | 52,373      | 46,196       |
| Franchise                          | 220,708     | 192,289      |
| Other                              | 6,472       | 16,276       |
| Miscellaneous                      | 3,150       | 1,915        |
| Earning on investments             | 110         | 407          |
| Reimbursements                     | 0           | 0            |
| Grants                             | 87,360      | 84,648       |
| <b>Total Revenues</b>              | \$1,060,481 | \$ 1,015,303 |
|                                    |             |              |
| Library                            | 839,399     | 757,020      |
| Interest on Long-Term Debt         | 81,285      | 83,966       |
| <b>Total Expenses</b>              | \$920,684   | \$ 840,986   |
|                                    |             |              |
| <b>Change in Net Position</b>      | \$ 139,797  | \$ 174,317   |

#### Comments on Current Year / Prior Year Comparison

- Current year revenues totaled \$1,060,481 compared to prior year total revenues of \$1,015,303 an increase of \$45,178. This increase is primarily due to additional franchise and property taxes received.
- Current year expenditures totaled \$920,684 compared to prior year expenditures of \$840,986, an increase of \$79,698. This increase is primarily due to an increase in payroll costs and an increase in library materials purchased.

#### Capital Assets and Debt Administration

#### **Capital Assets**

At the end of fiscal year 2023 the Library had \$4.3 million invested in land, buildings, equipment, and vehicles. The table below shows fiscal year 2023 and 2022 balances.

#### Capital Assets at June 30, 2023 and 2022 Net of Depreciation

### Governmental Activities

|                            | Activities |           |

# MARION COUNTY PUBLIC LIBRARY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES JUNE 30, 2023

| NET CHANGES - GOVERNMENTAL FUNDS   |                               | 95,307    |
|--|-------------------------------|-----------|
| Governmental funds report capital outlays as expenditures because they use current financial resources. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeds capital for the year.  Capital Outlays  Lease Amortization Expense  Depreciation Expense                           | 1,223<br>(8,144)<br>(135,714) | (142,635) |
| Bond proceeds and leases are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the statement of net position.  Bond Principal Payments | 115,000                       |           |
| Lease Principal Payments   | 8,662                         | 123,662   |
| Generally, expenditures recognized in this fund financial statement are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred.   |                               |           |
| Amortization Bond Discount   |                               | (1,868)   |

#### **Notes to Financial Statements**

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The financial statements of the Marion County Public Library have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") applicable to state and local governments. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the Library are described below.

#### A. Reporting Entity

The Marion County Public Library (Library) is a special taxing Library of Marion County, Kentucky. A Board appointed by the Marion County Fiscal Court governs the activities of the Library. Board members serve four-year terms, which expire at different intervals.

#### **B.** Fixed Assets

Property, plant, and equipment are stated at historical cost. Assets are depreciated on a straight-line method. The Library does not capitalize Library books. They are deemed to have a useful life of less than three years. All Library books acquired are considered a period expense at the time of acquisition. Depreciation is computed using the straight-line method over the following useful lives:

| Description                | Governmental Activities<br>Estimated Lives |
|----------------------------|--|
| Buildings and improvements | 25-50 years                                |
| Land improvements          | 20 years                                   |
| Vehicles                   | 5-10 years                                 |
| Equipment                  | 10-12 years                                |
| Furniture and fixtures     | 5-10 years                                 |

#### C. Measurement Focus, Basis Accounting, and Financial Statement Presentation

Measurement focus refers to what is being measured and basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement focus applied. The government-wild financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the time of related cash flows. Property taxes are recognized as revenues for the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Available means collectible within the current period or soon thereafter to be used to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting.

Investment income (including unrealized gains and losses) are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the government receives cash.

When fund balance resources are available are available for a specific purpose in more than one classification, it is the Library's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned, as they are needed.

#### D. Budgetary Data

The Library Board adopts an annual budget following the procedures established pursuant to Section 65A.020 of the Kentucky Revised Statutes. The annual budget is prepared and adopted on a basis of accounting consistent with the fund basis of accounting. Revenues are budgeted by source and expenditures are budgeted by class. Budget revisions are subject to final review by the Library Board.

#### E. Fund Equity

In accordance with Government Accounting Standards Board 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Library classifies governmental fund balances as follows:

Non-spendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.

Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the Library Director.

Unassigned – includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

The Library uses *restricted/committed* amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as grant agreements requiring dollar for dollar spending. Additionally, the Library would first use *committed*, then *assigned*, and lastly *unassigned* amounts for unrestricted fund balance when expenditures are made.

The Library does not have a formal minimum fund balance policy.

#### F. Net Position

Net Position represents the difference between assets and liabilities. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Library or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

#### G. Pensions

County Employees Retirement System - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System Non-Hazardous ("CERS") and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Since certain expense items are amortized over the closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce pension expense the amounts are labeled deferred outflows. If amounts will increase pension expense the amounts are labeled deferred outflows. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average expected remaining service life of the active and inactive plan members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five-year period.

#### H. Postemployment Benefits Other Than Pensions

County Employees Retirement System – For purposes of measuring the liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County Employees Retirement System of the State of Kentucky (CERS) and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Since certain expense items are amortized over the closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce pension expense the amounts are labeled deferred inflows. If amounts will increase pension expense the amounts are labeled deferred outflows. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average expected remaining service life of the active and inactive plan members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five-year period.

#### I. Cash and Investments

Investments are reported at fair value, which is determined using selected basis. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price at current exchange rates. Cash deposits are reported at carrying amounts, which reasonably estimate fair value. The Library considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

#### J. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **K.** Property Tax Revenues

Property taxes are levied each September on the assessed value listed as of the prior January 1, for all real and personal property in the county. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending 30 days after the tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied. All taxes collected are deposited into the General fund.

The property tax rates assessed for the year ended June 30, 2023, to finance the General Fund operations were \$0.048 per \$100 valuation for real property, \$0.048 per \$100 valuation for business personal property, and \$0.0219 per \$100 valuation for motor vehicles.

The Library levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the county, of telephonic and telegraphic communications services, cablevision services, electric power, water, and natural, artificial, and mixed gases.

#### L. Program Revenues

Program revenues for the Library include charges for services such as book fines, copier charges, and program fees; operating grants and contributions; and capital grants and contributions.

#### M. Changes In Accounting Principle

Effective July 1, 2022, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-based Information Technology Arrangements*. GASB No. 96 establishes accounting and financial reporting guidance for subscription-based technology contracts and vendor-provided technology. This implementation had no adjustment on beginning net position. It is noted that many of the Library's technology-related contracts are reviewed annually to ensure the Library has the right to change, renegotiate, or not renew for both educational and financial reasons. Beginning net position has not been restated as the net impact on the Library's Net Investment in Capital Assets is not material to the Library.

#### **NOTE 2 – RETIREMENT PLAN**

The Library's employees are provided with two pension plans, based on each position's college degree requirement. The County Employees Retirement System covers employees whose position does not require a college degree or teaching certification.

### General information about the County Employees Retirement System Non-Hazardous ("CERS")

Plan description—Employees whose positions do not require a degree beyond a high school diploma are covered by the CERS, a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. Under the provisions of the Kentucky Revised Statute ("KRS") Section 61.645, the Board of Trustees of the Kentucky Retirement System administers CERS and has the authority to establish and amend benefit provisions. The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained from http://kyret.ky.gov/.

Benefits provided—CERS provides retirement, health insurance, death and disability benefits to Plan employees and beneficiaries. Employees are vested in the plan after five years' service. For retirement purposes, employees are grouped into three tiers, based on hire date:

| Tier 1 | Participation date   | Before September 1, 2008                              |
|--------|----------------------|---|
|        | Unreduced retirement | 27 years service or 65 years old                      |
|        | Reduced retirement   | At least 5 years service and 55 years old             |
|        |                      | At least 25 years service and any age                 |
| Tier 2 | Participation date   | September 1, 2008 - December 31, 2013                 |
|        | Unreduced retirement | At least 5 years service and 65 years old             |
|        |                      | OR age 57+ and sum of service years plus age equal 87 |
|        | Reduced retirement   | At least 10 years service or 60 years old             |
| Tier 3 | Participation date   | After December 31, 2013                               |
|        | Unreduced retirement | At least 5 years service and 65 years old             |
|        |                      | OR age 57+ and sum of service years plus age equal 87 |
|        | Reduced retirement   | Not Available   |

Cost of living adjustments are provided at the discretion of the General Assembly. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are \$5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and \$10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Contributions—Required contributions by the employee are based on the tier:

|               | Required             |  |
|---------------|----------------------|--|
| Contributions |                      |  |
| Tier 1        | 5%                   |  |
| Tier 2        | 5% +1% for insurance |  |
| Tier 3        | 5% +1% for insurance |  |

Library's proportionate share of the CERS net pension liability \$ 627,045

The net pension liability for each plan was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The Library's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2022, the Library's proportion was 0.008674% percent.

For the year ended June 30, 2023, the Library recognized pension expense of \$(10,933) related to CERS. At June 30, 2023, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | Deferred           | Deferred   |
|---|--------------------|------------|
|   | <b>Outflows of</b> | Inflows of |
|   | Resources          | Resources  |
| D:00  |                    |            |
| Differences between expected and actual         |                    |            |
| experience                                      | 670                | 5,584      |
| Changes of assumptions                          | -                  | -          |
| Net difference between projected and actual     |                    |            |
| earnings on pension plan investments            | 85,322             | 69,247     |
| Changes in proportion and differences           |                    |            |
| between Library contributions and proportionate |                    |            |
| share of contributions                          | -                  | 61,354     |
| Library contributions subsequent to the         |                    |            |
| measurement date                                | 53,694             |            |
| Total   | 139,686            | 136,185    |

\$ 53,694 of the amount reported as deferred outflows of resources related to pensions resulting from Library contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in pension expense as follows:

| Year ended June 30: |          |  |
|---------------------|----------|--|
| 2024                | (44,757) |  |
| 2025                | (17,979) |  |
| 2026                | (5,269)  |  |
| 2027                | 17,812   |  |
| 2028                | 0        |  |

#### County Employees' Retirement System (CERS)

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Valuation Date Actuarial Cost Method Amortization Method | June 30, 2020 Entry Age Normal Level Percent of Pay   |
|--|---|
| Remaining Amortization Period                            | 30 years, closed period at June 30, 2019  Gains/losses incurring after 2019 will be amortized over                |
|  | separate closed 20-year amortization bases  |
| Asset Valuation Method                                   | 20% of the difference between the market value of assets and the expected actuarial value of assets is recognized |
| Payroll Growth Rate                                      | 2.0%  |
| Investment rate of return                                | 6.25%   |
| Projected salary increases                               | 3.30 to 10.30%, varies by service   |
| Inflation rate   | 2.30%   |
| Mortality  | System-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate         |
|  | rates from MP-2014 mortality improvements scale using a base year of 2019   |
| Phase-In provision                                       | Board certified rate is phased into the actuarially   |
| Thase-in provision                                       | determined rate in accordance with HB 362 enacted in  |
|  | 2018  |

For CERS, the long-term expected rate of return was determined by using a building block method in which best estimate ranges of expected future real rates of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class is summarized in the table below. The current long-term inflation assumption is 2.30% per annum.

For CERS the target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by CERS's investment consultant, are summarized in the following table:

|                                       | Target     | Long-Term Expected  |
|---------------------------------------|------------|---------------------|
| Asset Class                           | Allocation | Real Rate of Return |
|                                       |            |                     |
| Equity                                | 60.00%     |                     |
| Public Equity                         | 50.00%     | 4.45%               |
| Private Equity                        | 10.00%     | 10.15%              |
| Fixed Income                          | 20.00%     |                     |
| Core Bonds                            | 10.00%     | 0.28%               |
| Specialty Credit / High Yield         | 10.00%     | 2.28%               |
| Cash                                  | 0.00%      | -0.91%              |
| Inflation Protected                   | 20.00%     |                     |
| Real Estate                           | 7.00%      | 3.67%               |
| Real Return                           | 13.00%     | 4.07%               |
| Total                                 | 100.0%     | 4.28%               |
| Long Term Inflation Assumption        |            | 2.30%               |
| Expected Nominal Return for Portfolio |            | 6.58%               |

Discount rate—For CERS, projection of cash flows used to determine the discount rate of 6.25% assumes that the funds receive the required employer contributions each future year, as determined by the current funding policy established in Statute as amended by House Bill 362 (passed in 2018) over the remaining 30 years (closed) amortization period of the unfunded actuarial accrued liability.

Sensitivity of CERS proportionate share of net pension liability to changes in the discount rate—The following table presents the net pension liability of the District, calculated using the discount rates selected by each pension system, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|                               | Current Discount |         |             |
|-------------------------------|------------------|---------|-------------|
|                               | 1% Decrease      | Rate    | 1% Increase |
| CERS                          | 5.25%            | 6.25%   | 7.25%       |
| Library's proportionate share | 3.2370           | 0.2370  | 7.2370      |
| of net pension liability      | 783,728          | 627,045 | 497,454     |

*Pension plan fiduciary net position*—Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports of CERS.

#### NOTE 3 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

#### County Employees' Retirement System of Kentucky

Plan description – Classified (non-certified) employees of the Kentucky School Library are provided OPEBs through the County Employees Retirement System of the State of Kentucky (CERS)—a cost-sharing multiple-employer defined benefit OPEB plan retirement annuity plan coverage for local school districts and other public agencies in the state. CERS was established July 1, 1958 by the state legislature. CERS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. CERS issues a publicly available financial report that can be obtained at https://kyret.ky.gov/About/Board-of-Trustees/Pages/CAFR-and-SAFR.aspx.

The state reports a liability, deferred outflows of resources and deferred inflows of resources, and expense as a result of its statutory requirement to contribute to the CERS Medical Insurance. The following information is about the CERS plans:

#### **Medical Insurance Plan**

Plan description —The Kentucky Retirement Systems' Insurance Fund (Insurance Fund) was established to provide hospital and medical insurance for eligible members receiving benefits from KERS, CERS, and SPRS, the state retirement options. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan. The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. It is noted that while this insurance fund covers employees eligible through KERS, CERS, and SPRS, only the portion related to CERS is applicable to Burgin Independent School District since the District does not have or qualify to have employees participate in KERS or SPRS.

Benefits provided – Medical Insurance coverage is provided based on the member's initial participation date and length of service. Members received either a percentage or dollar amount for insurance coverage. The amount of contribution paid by the Insurance Fund is based on years of service. For members participating prior to July 1, 2003, years of service and respective percentages of the maximum contribution are as follows:

| Years of Service | Paid by Insurance Fund (%) |
|------------------|----------------------------|
| 20+              | 100%                       |
| 15-19            | 75%                        |
| 10-14            | 50%                        |
| 4-9              | 25%                        |
| Less than 4      | 0%                         |

Medical insurance benefits are calculated differently for members who began participating on or after July 1, 2003. Once members reach a vesting period of 10 years, non-hazardous employees whose participation began on or after July 1, 2003 earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. This dollar amount is subject to adjustment annually, which is currently 1.5%, based upon Kentucky Revised Statutes. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands. Only benefit descriptions applicable to CERS Non-Hazardous have been included with this information since only that portion is applicable to the Library.

Contributions – In order to fund the post-retirement healthcare benefit, 3.39% of the gross annual payroll of members is contributed for the year ended June 30, 2023 for CERS Non-Hazardous, which is the portion of the plan applicable to the Library, and this portion is paid 100% paid by employer contributions. One percent (1.00%) is contributed by employees hired on or after September 1, 2008.

At June 30, 2023, the Marion County Public Library reported a liability of \$171,163 for its proportionate share of the collective net OPEB liability that reflected a reduction for state OPEB support provided to the Library. The collective net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the collective net OPEB liability was based on a projection of the Library's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2023, the Library's proportion was .008673 percent, compared to .0009434 percent at June 30, 2022.

The amount recognized by the Library as its proportionate share of the OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the Library were as follows:

Library's proportionate share of the net OPEB liability \$ 171,163

For the year ended June 30, 2023, the Library recognized OPEB expense of \$14,016. At June 30, 2023, the Library reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

|   | Deferr | red Outflows of | Deferre | d Inflows of |
|---|--------|-----------------|---------|--------------|
|   | R      | Resources       | Res     | sources      |
| Differences between expected and actual experience  | \$     | 17,229          | \$      | 39,252       |
| Changes of assumptions  |        | 27,071          |         | 22,306       |
| Net difference between projected and actual earnings on pension plan investments                                  |        | 31,872          |         | 24,925       |
| Changes in proportion and differences<br>between Library contributions and proportionate<br>share of contrbutions |        | 1,795           |         | 33,025       |
| Library contributions subsequent to the measurement date  |        | 20,831          |         | <u>-</u>     |
| Total   |        | 98,798          |         | 119,508      |

Of the total amount reported as deferred outflows of resources related to OPEB, \$14,660 resulting from District contributions subsequent to the measurement date and before the end of the fiscal year and implicit subsidy of \$6,171 totaling \$20,831 will be included as a reduction of the collective net OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the Library's OPEB expense as follows:

| Year ended June 30: |             |
|---------------------|-------------|
| 2024                | \$ (10,344) |
| 2025                | (11,582)    |
| 2026                | (17,755)    |
| 2027                | (1,860)     |
| 2028                | -           |
| Thereafter          | -           |

Actuarial assumptions – The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Valuation Date              | June 30, 2021                      |
|-----------------------------|------------------------------------|
| Inflation                   | 2.30%                              |
| Payroll Growth Rate         | 2.00%                              |
| Investment rate of return   | 6.25%                              |
| Salary Increases            | 3.30% to 10.30%, varies by service |
| Healthcare cost trend rates |                                    |

The single discount rate of 5.70% for CERS Nonhazardous was used to measure the total OPEB liability as of June 30, 2022. The single discount rates are based on the expected rate of return on OPEB plan investments of 6.25%, and a municipal bond rate of 3.69%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2022. Based on the assumptions and the projection of cash flows of each fiscal year ending, the plan's fiduciary net position and future contributions were projected and were sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit paid from the plan. However, the cost associated with the implicit subsidy was not included in the calculation of the plans actuarially determined contributions, and any cost associated with the implicit subsidy will not be paid out of the plans trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

The long-term (10-year) expected rates of return were determined using a building block method in which best estimate ranges of expected future real rates of return were developed for each asset class. The ranges were combined by weighting the expected future real rate of return by the target asset allocation percentage.

| _          |   |
|------------|---|
| Target     | Expected  |
| Allocation | Real Rate of Return   |
| CO 500/    |   |
|            |   |
| 21.75%     | 5.70%   |
| 21.75%     | 6.35%   |
| 10.00%     | 9.70%   |
| 15.00%     | 2.80%   |
| 11.50%     |   |
| 10.00%     | 0.00%   |
| 1.50%      | -0.60%  |
| 20.00%     |   |
| 10.00%     | 5.40%   |
| 0.00%      | N/A   |
| 10.00%     | 4.55%   |
| 100.0%     |   |

The following table presents the District's proportionate share of the collective net OPEB liability of the System, calculated using the discount rate of 5.70%, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.70%) or 1-percentage-point higher (6.70%) than the current rate:

|   | Current Discount |         |             |  |  |  |
|---|------------------|---------|-------------|--|--|--|
|   | 1% Decrease      | Rate    | 1% Increase |  |  |  |
| CERS  | 4.70%            | 5.70%   | 6.70%       |  |  |  |
| Library's proportionate share of net OPEB liability | 247,975          | 171,163 | 124,324     |  |  |  |

Sensitivity of the Library's proportionate share of the collective net OPEB liability to changes in the healthcare cost trend rates – The following presents the Library's proportionate share of the collective net OPEB liability, as well as what the Library's proportionate share of the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that were 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

|                   | Current Trend |         |             |  |  |  |
|-------------------|---------------|---------|-------------|--|--|--|
|                   | 1% Decrease   | Rate    | 1% Increase |  |  |  |
| Systems' net OPEB |               |         |             |  |  |  |
| liability         | 127,256       | 171,163 | 223,887     |  |  |  |

*OPEB plan fiduciary net position* – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued CERS financial report.

#### **NOTE 4 – PROPERTY AND EQUIPMENT**

A summary of changes in property and equipment is as follows:

|   | Balance 7/1/2022                        | Additions                            | Deletions   | Balance 6/30/2023                         |  |  |
|---|---|--------------------------------------|-------------|---|--|--|

No interest was capitalized for the year ended June 30, 2023.

#### **NOTE 5 – DEPOSITS AND INVESTMENTS**

Custodial Credit Risk - Deposits. Custodial Credit is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's policy is to have all deposits secured by pledged securities.

At year-end, the carrying amount of the Library's total cash and cash equivalents were \$1,079,234. Of the total cash balance, \$376,136 was covered by Federal Depository Insurance and \$702,854 was covered by collateral agreements and collateral held by the pledging banks' trust departments in the Library's name and \$244 was held at the library as petty cash.

Cash and cash equivalents at June 30, 2023, consisted of the following:

|                       | Bank Balance     | <b>Book Balance</b> |
|-----------------------|------------------|---------------------|
| U.S. Bank             | 968,369          | 952,854             |
| Farmers National Bank | 126,136          | 126,136             |
| Petty Cash            | 0                | 244                 |
| Total                 | <u>1,094,505</u> | 1,079,234           |

#### **NOTE 6 – LONG-TERM LIABILITIES**

On December 20, 2017, the Library issued \$3,020,000 in Revenue Bonds with an average interest rate of 3.5 percent to fund the Library addition and renovation.

The Library, through the General Fund is obligated to make bond payments in amounts sufficient to satisfy debt service requirements on the bonds. The Library has an option to purchase the property under lease at any time by retiring the bonds then outstanding.

The Library was awarded a grant by the Kentucky Department of Library Archives (KDLA). The Library will receive 20 annual payments of \$145,600. These funds are restricted for debt service for the payment of these revenue bonds issues for the renovation of the Library.

The bonds may be called prior to maturity and redemption premiums are specified in each issue. Assuming no bonds are called prior to scheduled maturity, the minimum obligations of the Library, including amounts to be paid with funds received from the KDLA Grant, at June 30, 2023, for debt service (principal and interest) are as follows:

| 2023-24         120,000         76,018         196,018           2024-25         120,000         72,418         192,418           2025-26         125,000         68,743         193,743           2026-27         130,000         64,918         194,918           2027-28         135,000         60,944         195,944           2028-29         135,000         56,894         191,894           2029-30         140,000         52,769         192,769           2030-31         145,000         48,494         193,494           2031-32         150,000         44,069         194,069           2032-33         155,000         39,397         194,397           2033-34         160,000         34,475         194,475           2034-35         165,000         29,294         194,294           2035-36         170,000         23,850         193,850           2036-37         175,000         18,244         193,244           2037-38         35,000         14,788         49,788           2038-39         35,000         12,338         47,338           2040-41         35,000         12,338         47,338           2040-41 <t< th=""><th>Year</th><th>Principal</th><th>Interest</th><th>Annual<br/>Total</th></t<> | Year    | Principal | Interest | Annual<br>Total |

#### **NOTE 7 – LEASES: COPIERS**

The Library is committed under a noncancellable operating lease for two copiers with a monthly payment of \$845.78. The total lease liability measured at present value is \$40,722. The ending balance at June 30, 2023 is \$5,235. The Library has recognized an intangible right of use asset for the term of the lease. Annual requirements to amortize long-term obligations and related interest are as follows:

| Year | <u>Principal</u> | Interest |
|------|------------------|----------|
| 2024 | 5,235            | 79       |

The following assets and amortization have been recognized.

| Intangible Right of Use Asset – Copiers | \$ 40,722    |
|---|--------------|
| Accumulated Amortization                | (35,971)     |
| Net Ending Balance                      | <u>4,751</u> |

#### **NOTE 8 – SUBSEQUENT EVENTS**

Management has reviewed subsequent events through June 28, 2024. There are no material subsequent events to disclose.

### MARION COUNTY PUBLIC LIBRARY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF LIBRARY'S PROPORTIONATE SHARE OF THE NET PENSION LIABLITY FOR THE YEAR ENDED JUNE 30, 2023

### **COUNTY EMPLOYEES RETIREMENT SYSTEM**

### **NOTE A – CHANGES OF ASSUMPTIONS**

### 2015

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30, 2015:

The assumed investment rate of return was decreased from 7.75% to 7.50%

The assumed inflation rate was reduced from 3.5% to 3.255%

The assumed rate of wage inflation was reduced from 1.00% to .75%

Payroll growth assumption was reduced from 4.5% to 4%

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females)

For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 20013 (set back 1 year for females). For disabled members, the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The assumed rates of Retirement, Withdrawal and Disability were updated to more accurately reflect experience.

### <u>2016</u>

There were no changes of assumptions for the year ended June 30, 2016.

### 2017

The following changes were made by the KRS Board of Trustees and reflected in the valuation performed as of June 30, 2017:

The assumed rate of inflation was reduced to 2.30% from 3.25%

The assumed salary increases were reduced to 3.05%, average, from 4.00%, average including inflation

The assumed investment rate of return was reduced to 6.25% from 7.50%

### 2018

There were no changes in assumptions.

### 2019

The following changes were made by the KRS Board of Trustees and reflected in the valuation performed as of June 30, 2019:

### MARION COUNTY PUBLIC LIBRARY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF LIBRARY'S PROPORTIONATE SHARE OF THE NET PENSION LIABLITY FOR THE YEAR ENDED JUNE 30, 2023

### COUNTY EMPLOYEES RETIREMENT SYSTEM (CONTINUED)

The projected salary increase was changed to 3.3-11.5% from 3.05%

The asset valuation method was changed to 20% of the difference between the market value assets and the expected actuarial value of assets if recognized from 5-year smoothed market.

The payroll growth rate was changed to 2.0% from 4.0%.

The investment rate of return was change to 6.25% from 7.5%

The inflation rate was changed to 2.3% from 3.25%.

### <u>2020</u>

There were no changes of assumptions for the year ended June 30, 2020.

### 2021

There were no changes of assumptions for the year ended June 30, 2021.

### 2022

There were no changes of assumptions for the year ended June 30, 2022.

### NOTE B – METHOD AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARIALLY DETERMINED CONTRIBUTIONS

The following actuarial methods and assumptions were used to determine the rates reported in that schedule:

Valuation Date June 30, 2020

Experience Study July 1, 2008 – June 30, 2013

Actuarial Cost Method Entry Age Normal
Amortization Method Level percent of pay
Remaining Amortization Period 30 years, Closed

Gains/losses incurring after 2019 will be

amortized over separate 20-year

amortization basis

Payroll Growth Rate 2.00%

Asset Valuation Method 20% of the difference between the market

value of assets and the expected actuarial

value of assets is recognized

Inflation 2.30 percent

Salary Increase 3.30-10.30 percent, varies by service

Investment Rate of Return 6.25 percent

Phase-In Provision

Board certified rate is phased into the actuarially determined rate in accordance with HB 362 enacted in 2018 for CERS

## MARION COUNTY PUBLIC LIBRARY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF LIBRARY'S PROPORTIONATE SHARE OF THE NET PENSION LIABLITY FOR THE YEAR ENDED JUNE 30, 2023

### COUNTY EMPLOYEES RETIREMENT SYSTEM (CONTINUED)

The retiree mortality is a System-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019.

### **NOTE C – CHANGES OF BENEFITS**

There were no changes in benefits for CERS non-hazardous pensions.

## MARION COUNTY PUBLIC LIBRARY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF THE NET OPEB LIABLITY FOR THE YEAR ENDED JUNE 30, 2023

### COUNTY EMPLOYEES RETIREMENT SYSTEM

### **NOTE A – CHANGES OF ASSUMPTIONS**

### <u>2017</u>

The assumed investment return was changed from 7.5% to 6.2%

The price inflation assumption was changed from 3.25% to 2.30% which resulted in a .95% decrease in the salary increase assumption at all years of service

The payroll growth assumption (\*applicable for the amortization of unfunded actuarial accrued liabilities) was changed from 4.0% to 2.0%

For the non-hazardous plan, the single discount rate changed from 6.89% to 5.84%. For the hazardous plan the single discount rate changed from 7.37% to 5.96%

### 2018

There were no changes in assumptions.

### 2019

The investment rate of return was changed to 6.25% from 7.0%

The projected salary increases changed to 3.05-11.55% from 4.0%

The inflation rate changed to 2.3% from 3.25%

The payroll growth rate changed to 2.0% from 4.0%

### 2020

There were no changes in assumptions.

### 2021

The single discount rates used to calculate the total OPEB liability changed since the prior year. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2020 valuation process and was updated to better reflect the plan's long-term healthcare costs.

### 2022

There were no changes in assumptions.

### MARION COUNTY PUBLIC LIBRARY NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF THE NET OPEB LIABLITY FOR THE YEAR ENDED JUNE 30, 2023

### COUNTY EMPLOYEES RETIREMENT SYSTEM (CONTINUED)

### NOTE B – METHOD AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARIALLY DETERMINED CONTRIBUTIONS

Methods and assumptions used in the actuarially determined contributions – The actuarially determined contribution rates, as a percentage of payroll, used to determine the actuarially determined contribution amounts in the Schedule of Employer Contributions are calculated as the of the indicated valuation date. The following actuarial methods and assumptions (from the indicated actuarial valuations) were used to determine contribution rates reported in that schedule for the year ending June 30, 2022:

Valuation Date June 30, 2020

Experience Study July 1, 2013 – June 30, 2018

Actuarial Cost Method Entry Age Normal
Amortization Method Level percent of pay
Remaining Amortization Period 30 years, closed

Gains/losses incurring after 2019 will be amortized over separate closed 20-year amortization bases

2.00%

Asset Valuation Method 20% of the difference between the market value of

assets

and the expected actuarial value of assets is

recognized

Inflation 2.30%

Salary Increase 3.30%-10.30%, varies by service

Investment Rate of Return 6.25 %

Healthcare cost trend rates

Payroll Growth Rate

Pre - 65 Initial trend starting at 6.40% at January 1, 2022 and

gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years. The 2021 premiums were known at the time of valuation and were incorporated

into the liability measurement.

Post - 65 Initial trend starting at 6.30% at January 1, 2023 and

gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years. The 2021 premiums were known at the time of valuation and were incorporated

into the liability measurement.

### NOTE C – CHANGES OF BENEFITS

There were no changes in benefits for CERS OPEB.

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Marion County Public Library Lebanon, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Marion County Public Library, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Marion County Public Library's basic financial statements, and have issued our report thereon dated June 28, 2024.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Marion County Public Library's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Marion County Public Library's internal control. Accordingly, we do not express an opinion on the effectiveness of the Marion County Public Library's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining a reasonable assurance about whether the Marion County Public Library's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Sincerely,

White and Company, P.S.C.

Certified Public Accountants

June 28, 2024

Board of Directors Marion County Public Library Lebanon, Kentucky

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Marion County Public Library for the year ended June 30, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 3, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### **Significant Audit Matters:**

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Marion County Public Library are described in Note A to the financial statements. As described in Note 1M to the financial statements, the Library changed policies related to subscription-based technology agreements by adopting Statement of *Governmental Accounting Standards No. 96, Subscription-Based Information Technology Agreements*, in 2023. No other new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by Marion County Public Library during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of the useful lives of capital assets for computation of depreciation. We evaluated the key factors and assumptions used to develop the computation of depreciation in determining that it is reasonable in relation to the financial statements taken as a whole.

### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

### Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management had corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

### Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 28, 2024.

### Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to Marion County Public Library's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were not such consultations with other accountants.

### Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Marion County Public Library's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We applied certain limited procedures to management's discussion and analysis and budgetary comparison information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were not engaged to report on the budgetary comparison information on page 30, or on the schedules of the library's proportionate share of net pension liabilities and other post-employment benefit plans on pages 31 and 33 or on the schedules of contributions to the County Employees Retirement System and pension plans or the County Employees Retirement System other post-employment benefit plans on pages 32 and 34, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### Restriction on Use

This information is intended solely for the use of members of the Board of Directors and management of Marion County Public Library and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely,

White and Company, P.S.C.

Certified Public Accountants

### MANAGEMENT LETTER

Marion County Public Library Board of Directors Lebanon, Kentucky

In planning and performing our audit of the financial statements of Marion County Public Library for the year ended June 30, 2023, we considered its internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements. Our professional standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We feel that the Library's financial statements are free of material misstatement. However, we offer the following suggestions that we feel will strengthen your organization's internal control structure.

### Prior Year Recommendation:

During the prior year, we recommended that the Library continue to monitor documentation of credit card expense and ensure bills are paid in full by the due date.

### Current Year Status and Recommendation:

During the current year, instances of a lack of supporting documentation were noted. Again, these have become fewer and do tend to be for smaller dollar amounts. We recommend that all documentation be gathered at the time the bill is received. This will avoid the crunch and uncertainties that go with gathering this information after-the-fact.

Further, during the fiscal year ended June 30, 2023, it was noted that the Board elected to ensure the credit card was caught up and paid in full. However, after that billing period, interest charges again returned as the payments were submitted. We recommend that all credit card payments be made timely to ensure that late fees and interest charges are not incurred by the Library.

### **Current Year Recommendation:**

During the current year audit, several deposits were reviewed as a part of revenue testing. We noted that several deposits included checks received at a date well before the deposit date. Those items had to have been on hand for more than one to two weeks at a time. In fact, in a couple of instances payments were likely received a month or more prior to the deposit date. We recommend that the Library ensure that deposits are made at least one each week.

### Current Year Status and Recommendation:

Deposits were made more timely, particularly toward the last few months of the fiscal year. We again recommend that deposits be made at least once a week unless the amount received for the week is only a trivial amount of cash for fines, copies, etc.

We would like to offer our assistance throughout the year if and when new or unusual situations arise. Our awareness of new developments when they occur would help to ensure that the Library is complying with requirements such as those mentioned above.

We will review the status of these comments during our next audit engagement. We have already discussed these comments and suggestions with Library personnel, and we will be pleased to discuss them in further detail at your convenience to perform any additional study of these matters or to assist you in implementing the recommendations.

Sincerely,

White and Company, P.S.C.

Certified Public Accountants
