MAN KILLED IN ROAD ACCIDENT

**Herbert Cheatham Victim Of
Wreck Early Sunday On
Springfield Pike.**

TAX RATE BOOST ASKED AUTO IS DEMOLISHED

Charles F. Martin of Lexington was named principal and basketball coach of the Lebanon High School and Richard Hutchison of Campbellsville was appointed football coach at the regular meeting of the City Board of Education Tuesday evening. They expect to assume their duties early in September and both come here highly recommended.

At the same meeting, the board elected Miss Enola Noradean Burress, daughter of Mr. and Mrs. Joe Burress, to take charge of the school's commercial department, succeeding Mrs. C. S. Hill, resigned; approved the 1946-1947 budget of \$60,348 and voted to request of the City Council a 20-cent raise in city taxes for school purposes.

Martin Is U. Of K. Graduate.

The new principal and basketball coach, a former resident of Harlan, is 28 years old, was graduated from the University of Kentucky in 1941, taught at Upton for one year and was recently released from the Navy in which he served four years. During the time he was with the Navy, he coached athletic teams at various naval centers. At present he is working on his Master's degree at the University of Kentucky. He is a married man but has no family.

Mr. Hutchinson, the new football coach, is also 28 years old and was lately restored to civilian status after serving as an Ensign in the Navy. Graduated from Centre College, Danville, in 1941, he taught and was assistant coach at the Campbellsville High School for one year and like Mr. Martin is now seeking his Master's degree at the University of Kentucky. He will continue his studies at the local school. He is unmarried.

Herbert Isaac Cheatham, 23-year-old resident of the Maud community in Washington County, was fatally injured about midnight Saturday when the Chevrolet coach he was driving collided with a produce truck said to have been owned by Henry Turner of Campbellsville. The accident occurred at a curve on the Springfield Highway a quarter of a mile beyond the Marion County line in Washington County.

Brought to the Mary Immaculate Infirmary here by a passing motorist, he was treated for head injuries, a crushed left shoulder and body bruises but died shortly after 3 o'clock Sunday morning.

Car Is Demolished.

The car, in which he was enroute to this city at the time of the collision, was virtually demolished. The upper part of the top was cut in half by the impact and Cheatham was thrown into the rear seat. The truck, driven by Alvin Parrott and loaded with poultry and eggs, was overturned into a ditch and for some distance the road was strewn with glass, broken eggs and chickens. Traffic was blocked for half an hour.

A second accident occurred at the scene when Bobby Hays, son of Mr.

LEAGUE GAMES BIG C BEGIN SUNDAY BE G

**Lebanon To Meet Springfield Thirty-Ei
In Bluegrass Circuit's
Opening Contest.**

The Lebanon baseball team, affiliated with the Bluegrass League, will play its first league game of the season Sunday afternoon, meeting the Springfield nine at the City Park here at 3 o'clock, Daylight Saving Time.

In preparation for the new season, which is arousing more than usual interest, the local ball park has been considerably improved. The grand stand has been enlarged, the playing field carefully graded and an eight-foot screen fence constructed along the sides so that patrons may watch games from their automobiles in safety. Nick Smith, team manager, stated that ground policies being adopted will prohibit all persons from the playing field except members of the committee in charge of the ball park.

The outfield line up for the curtain-raising league contest Sunday has not been fully decided but announcement

cil at its next meeting and at that
time a request will be made for the
increased school levy. The rate in the
past—90 cents on the \$100 worth of

the council so authorizes.

A committee from the Lebanon Ki-
wanis Club appeared before the Board
of Education Tuesday asking for the
establishment of a public playground
for children during the summer
months. The board agreed to pur-
chase the necessary playground
equipment if funds from other sources
are raised to finance competent super-
vision of the project. It was made
clear that such an undertaking would
not be sponsored by any one organiza-
tion or group and that money for
employing supervisors would likely be
raised through public subscriptions.

Insulation used in the preservers dur-
ing the war and now employed as a
highly efficient insulation.

Mr. Wilson discussed the innumer-
able developments in metallurgy which
have resulted in products stronger
than steel but far lighter. Through
science, a new steel was able to re-
place brass, a scarce commodity, in
the making of shell cases for Amer-
ica's guns, and proved even better.

The speaker told a number of humor-
ous stories and anecdotes during his
talk, further enhancing its audience
appeal. He was introduced by C. A.
Newquist.
